

## Guidelines Coordinator Report – Fall Assembly

Sheri H.

Since I joined the panel late, at Spring Assembly I did not have much to report. The last six months have been filled with zoom meetings of the committee, and the geographical thought force that was put together at Spring Assembly. As well as other committees bring forth changes

- The committee is close, but not ready, to present the changes that we wish to see changed in the “Hosting Assemblies guidelines”. There are a few details still needing to be smoothed out.
- The thought force for the geographical guidelines has met twice and the findings will be presented during the assembly.
- A USAW guidelines committee was recently created. There is still room to serve with that, if you’d like.
- The finance committee drew up some changes that they’d like to see changed in their guidelines. The guidelines committee are reviewing them now.
