

Website Administrator Report

A big thank you to everyone who had their Spring Assembly web reports in by 3/1/25. I really appreciate it. It is nice to avoid a rush at the end.

All website requests have been made and the site is current as of today. Please review your submittals and make sure they look as you intended. Let me know if any have been missed or of any changes you would like to see made.

As I have become more familiar with the workings of Word Press, I realize how much of the back end I do not understand. I have been trying to add a PayPal link, and although this sounds easy, I have not found it to be so. If anyone among you can help me do this, I would really appreciate it.

I believe that most of you know how to navigate the website. If anyone wants a quick tour, please see me during the conference.
