

Hello, Group Representatives. At the 2025 World Service Conference, we talked about implementing electronic Alateen groups just like we have electronic groups in Al-Anon right now. This is possible in our area, too. Next year, at the 2026 World Service Conference, the delegates will vote on if this will be adopted throughout all Al-Anon structures. However, before doing that, the delegates need to come to conference ready to share the questions or concerns from their areas. In this packet are four documents:

1. This read me file.
2. Delegate's Day slides summarizing the issue.
3. The proposed Electronic Alateen Safety and Behavioral Requirements that all Alateens and AMIAS (Al-Anon Member in Alateen Service) will have to abide by to attend electronic Alateen groups. Please review this document to understand what will be expected of Alateens and AMIAS.
4. A collection of questions and answers that have been brought to the conference regarding this topic. Please review this document to understand more fully how the discussion has progressed so far.

Let your delegate know at the next couple of assemblies what your and your group's thoughts are on this matter. Do you support having electronic Alateen groups in our area?
